otonomo

Automatic Parking Payment Service

Save drivers' time and your money when parking
in 150+ municipalities

Ease a Constant Headache for Fleets

Paying for parking is a big hassle that consumes hundreds of hours for drivers and fleet managers alike. Otonomo is partnering with telematics service providers (TSPs) to offer a value-added service that automatically pays for parking based on a vehicle's location. All a commercial driver must do is park the vehicle, and the service does the rest.

Our parking payments service uses telematics data to detect when a vehicle enters or leaves a municipal parking spot. It then automatically pays for parking at the correct rate. Telematics data detects when the parking session starts and ends.

Fleets gain:

It costs an average of € 7 to process a single parking ticket.

KPMG STUDY

Hundreds of hours spent by individual drivers paying for parking

An end to costly parking fines

Complete transparency into parking costs for your entire fleet

A cost reduction of about 20% of total parking costs

The service is available in more than 150 municipalities throughout the Netherlands, as well as locations in Belgium, France, and Germany.

Park Smarter

Consolidate all parking costs into one invoice

Your fleet manager receives a single monthly invoice for all parking transactions across all vehicles in the fleet, regardless of region or country. This consolidated view makes fleet management much more efficient.

## Make use of existing telematics data

Based on a single integration with the Otonomo Platform, the parking payment service is available to all fleet customers.

Empower drivers and fleets to make good parking choices

An optional mobile app allows drivers to check prices and maximum parking times for the locations in which they're parking.

Increase visibility into parking costs

The management dashboard offers an at-a-glance view of historical parking costs for fleet managers. Filter by vehicle or time period and export data for analysis through the fleet's business intelligence tools.

License	Cost	Duration
8-NGN-541	€0.99	27 mins (15:20 – 15:47)
8-NGN-541	€0.99	27 mins (15:20 – 15:47)
